#### Overview of Zanzibar Economy

Gross domestic Product (GDP) went up by 5.0 percent in the quarter ended June 2023. Total GDP in real terms marked to 824,527 TZS Million. The performance in the period reflects the increasing of Crops, livestock, mining and quarrying, accommodation and food services, transport and storage, professional scientific and technical services and other services as being implemented of major developments in the period which impacted positively performance of the industries.

Figure I displays the growth rates from March 2013 to June 2022 as measured by the percentage change in real GDP on the same quarter of the previous year (y-o-y) at constant 2015 prices. It have revealed that quarterly y-o-y growth rates were positive in the all trend except two quarters which declined (third quarter of 2013 and second quarter of 2020). The declined of the second quarter for 2020 we highly attributed by crisis caused by COVID 19 pandemic that contributed to the global economic shocks during that period.

Figure 1: The Quarterly Real GDP Growth at Constant 2015 Prices from 2013-2023

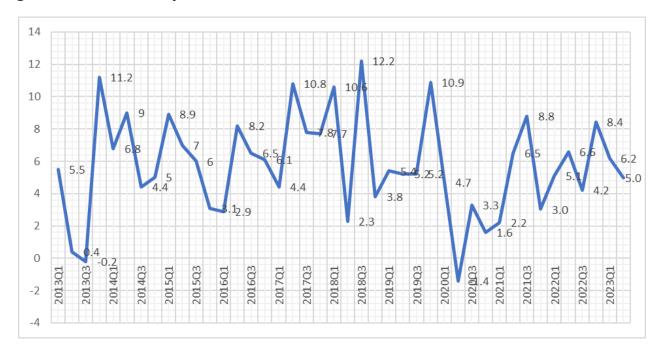

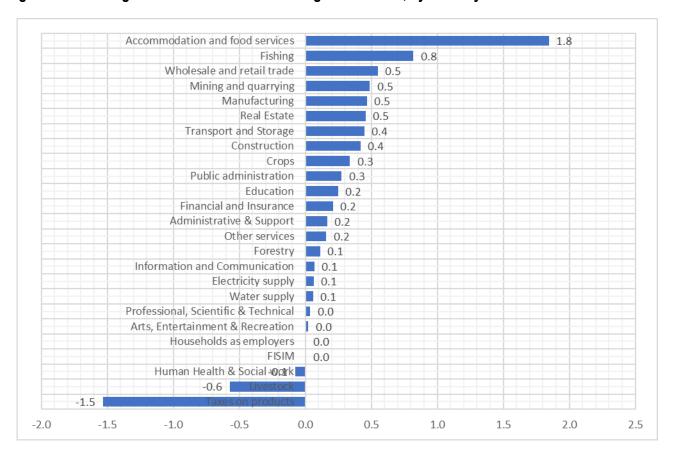

Figure 2 shows that the percentage – point contribution of each economic activity to the overall growth of 5.0 percent in the quarter ended June 2023. The positive contributors to the growth rate were Accommodation and Food services (1.8 percentage point), Fishing activities (0.8 percentage point), Wholesale and retail trade, Mining and quarrying, Manufacturing, Real state activities are all marked 0.5 percentage point contribution.

In this quarter, there some economic activities that contributed negatively. These activities are human health and social works (0.01 percentage points) and livestock (0.6 percentage points).

Figure: 2 Percentage Point Contributions to change in real GDP, by industry June 2022 Quarter

#### **GDP** levels (Nominal or Current Prices):

Total GDP for the June 2023 quarter in nominal terms registered 1,347,014 TZS million, grew by 6.4 percent compared with same quarter ended June 2022. The growth are attributed by double digit growth for Livestock, mining and quarrying, accommodation and food services, transport and storage, professional scientific and technical services and administrative and support activities.

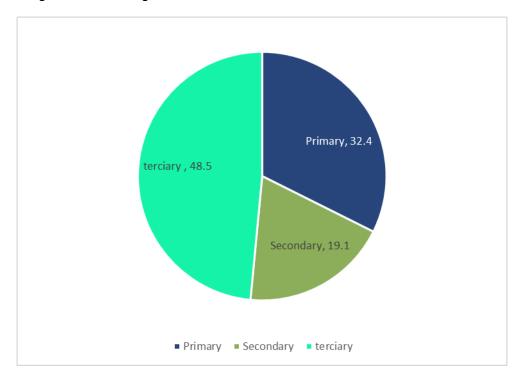

Figure 3: Percentage Share of Economic Activities to Total GDP

Figure 3 shows that the composition of GDP at current prices for quarter ended June 2023, categorized into the three main broad sectors of the economy, Primary Sector (Agriculture sector), Secondary Sector (Industry sector) and Tertiary Sector (Services Sector).

Tertiary sector remains the largest that comprising a total share of 48.5 percent of total GDP, decreased by 1.3 percent points when compared to share of the same quarter of 2022 quarter. Secondary sector recorded a share of 19.1 percent that decreased by 20.5 percent points and primary sector recorded a total share of 32.4 percent that increased by 15.3 percent points.

#### Twelve Months Review (July 2022— June 2023):

At constant 2015 prices (real terms), GDP stood at 4,368,352 million recording an increase of 6.1 percent compared to the 12 months period ended June 2023. This percentage increase was evident that favorable economic performance attributed by industries such as Crops, Wholesale and retail trade, Accommodation and Food services to mention a few.

Figure 4 shows the growth rates for the 12 months period and is the sum of four quarters, i.e the quarter start from quarter ended September 2022 to quarter ended June 2023. Similarity, the trend goes back to year 2014/15. As it is shown by the figure, economic activities in the 12 months period July 2014/15 to June 2022/23 have been steadily showing favorable performances for the 12 months

### period ending June 2023.

Figure 4: Percentage change in Current and Constant Prices for the year ended June (2014/15—2022/23)

Mining and Quarrying registered a total value added of **13,108 TZS** million at 2015 constant prices for the period under review. The industry contributed positively to the real growth rate with **0.5** percentage points for June 2023 quarter. The positive performance of **41.4** percent (y-o-y) shown by the industry was in line with the increases of volume of quarrying products within Zanzibar. However, the industry accounts for positive performance of **42.6** percent (y-o-y) at current prices that marked **14,874 TZS** value added. Changes from March 2023 quarter experience a positive growth of **21.2** percent (q-o-q).

#### Introduction

The compilation of national accounts statistics is a dynamic process, and therefore needs to adapt to reflect a variety of measures and indicators consistent with developments and structural changes in the economy over a period of time. It is therefore expected that revisions and updates are made to the historical series on a quarterly or annual basis as new data sources are brought into the model and as various benchmarks and assumptions are validated and updated.

This quarterly report is the 33th published by the Office of the Chief Government Statistician of the new quarterly series of GDP estimates at constant 2015 prices. This report is an ongoing publication and can also be downloaded from our website www.ocgs.go.tz.
